

Field Day 2019

Field Day 2019 (June 22 and 23) is almost here! MARC will be setting up at the same location as location as last year (Thank you Dave Powers, KS5SK!), 200 Plateau Dr McKinney. This is 7+ acres of field located on Hwy5 and Plateau Dr in McKinney.

We will have something for everyone this year, from setup, takedown, GOTA and Welcome station, VE Exam, Satellite, Handling traffic (W1AW bulletins during the day), Hands on connector class, a Family style dinner on Saturday night and of course, making as many contacts as possible on CW, Phone and Digital! We'll start operating at 1pm on Saturday.

We encourage everyone to get on the air during the weekend. If you are not comfortable with operating, no problem! Sign up to log and let us know. We'll pair you with experienced (and patient) 'Elmer' to get you started. This is a great chance to experience HF during a fun, learning setting. If you have a tech only license, let us know. You can still operate at the site, WITH a higher licensed operator! Great chance for you to get on HF as well.

The signup for Dinner on Saturday, June 22, has been sent out, as well as the signup to help with setup, logging, etc.

If you did not see the signup, or have any questions at all please send us an email:

MARC-FieldDay@groups.io

Here's the details:
